Saturday September 28, 2013 2:00 p.m.
BC Livestock CO-OP Williams Lake, B.C.

Welcome

Welcome everyone to the 3rd Annual Pacific Invitational All Breeds Female Sale. I am very honored to be the new Chairman of this elite event but have some very large shoes to fill. Jack Brown did an excellent job getting this sale off the ground and being the first of its kind in BC, it wasn't always a smooth road. But, learning curves aside, this has become a very prestigious event with the very best genetics BC has to offer. These progressive breeders have come together to offer you females from the top of their herds, allowing you to purchase with complete confidence.

There is a new found optimism in the cattle industry and I believe that this is the perfect time for BC purebred producers to capitalize on that. We have an excellent representation of what our province is capable of and this is the perfect venue to showcase that. Please contact a consignor or our Sale's Consultant, Bohrson Livestock Marketing, with any questions about the consignments. There is one to fit every herd, purebred or commercial; you won't be disappointed!

Erin Kishkan
Chairman, Pacific Invitational All Breeds Female Sale

On behalf of all the crew at BC Livestock, I'd like to welcome all contributors and potential buyers to see some of the finest purebred stock that this province has to offer. It's a great pleasure to showcase these cattle for the third year at our Williams Lake location.

With cattle prices on the rise, this creates optimism as well as excitement throughout our industry. So everybody mark the date on your calendar and plan to attend the event that will surely leave an impression on everybody that attends this great sale.

Kevin Johnson
General Manager

A big Hello and a warm Welcome to Everyone! The 3rd Annual Pacific Invitational All Breeds Female Sale is here! I am excited and honored to be part of this premier Sale. An excellent opportunity for purebred and commercial breeders to purchase some of the best quality females in Western Canada. At this time our industry is enjoying record pricing, solid optimism and positive outlook. A great time to invest in the females that are on offer here at the Pacific Invitational. I urge you all to come early and enjoy the show that will take place in the morning and invite you all to stay for a little social following the sale. I want to thank the committee for an outstanding job once again, Thank You to the breeders for their support and commitment to the cattle industry. As well a big Thank You to all of you for your interest, attendance and support of this First Class Sale!

Wayne Jordan

**All buyers will be entered into a draw for
2 tickets to the October 25, 2013
BC Lions vs Edmonton Eskimos CFL Football Game!

Terms and Conditions:

Cattle will sell under the standard Canadian Breed Association Sale Terms & Conditions that applies to the sale cattle's breed. The terms of the sale are cash, cheque, or Interac Direct Payment payable at par at the sale location. The right of property shall not pass until after the settlement has been made. No invoicing to buyers in attendance unless prior arrangements have been made. Every animal sells to the highest bidder and in cases of dispute, the auctioneer's decision is final. The purchases must be settled for within one hour of the completion of sale. If any purchaser fails to settle for his purchase stated, the Committee reserves the full power to resell the animal to the best advantage, either publicly or privately, without further intimation, and any loss arising from such resale, together with keep and other expenses will be collected from the

defaulter:

Immediately after each purchase is declared, the risk of the animal shall be exclusively with the purchaser; and it is declared that until a settlement shall be made in the terms of these conditions, the delivery of the animal shall be suspended.

The Committee, acting only as a medium between buyer and seller, will not be responsible for any loss of stock following the sale occurring from any cause whatsoever.

The consignor is not responsible for damage by foreign bodies after the animal is sold or for sickness not apparent at Sale time.

The Committee acts only as a Management Organization, as a medium between buyer and seller and will not be held responsible for any loss or damage that may occur, or any stock miss sent, whether or not through negligence on the part of its officers or servants.

Insurance

Insurance will be a mandatory \$10.00/animal fee from Hartford Livestock Insurance issued at the BC Livestock CO-OP office.

Bids

Bidders unable to attend the sale may phone, or mail their bids and instructions to the consignors, auctioneer, or sales staff prior to the sale.

Delivery

Delivery of purchases will be the responsibility of the purchaser, unless prior arrangements have been made.

Certificate of Registration Transfer

Transfer of Certificates of Registration will be completed by the Pacific Invitational All Breeds Female Sale committee and forwarded to the appropriate breed associations to complete the transfer of ownership.

Catalogue Information & Announcements

EPD's are current and up-to-date as of the publication date. Information in this document is believed to be accurate but any updates at the sale by the owners, auctioneer or sales management will take precedence over the information provided in the sale catalogue.

The Committee reserves the right to decide any point not covered in the Rules which the Committee considers necessary in the proper regulation and management of the sale. The decision of the Committee will be final in all cases.

Every person who consigns an animal to the sale, and everyone who bids at the sale, by doing so agrees to the foregoing terms and conditions as printed on the form of application and Sale Catalogue.

Marberly Angus

Welcome to the 2013 Pacific All Breeds Female Sale. I hope the hay grew well where you are, and that your feed yard is filling up nicely. I am proud to offer 2 great heifer calves at this year's sale. I think they are complete and good enough to go on and produce successfully for today's purebred market. Each of these heifer's sires are bulls I used for their correctness, their excellent breed characteristics and their good dispositions. I hope you enjoy the rest of your summer, and I look forward to discussing the cattle with you on sale day.

Black Velvet 4A is long, deep broody heifer with an excellent disposition. Her dam 215R is a high producing cow for me. She always brings in a big fancy calf in the fall. 215R excels in her heifer calves and I have kept many of them in my herd. I have a full sister to this calf at home, and this is the reason I have offered this excellent calf in this sale. Marberly Wise Guy 10W is a bull I raised. His calves are born easily, grow well and they all have a very similar look to them. I have been happy with how well the 10W heifer calves have grown out in my herd. 4A will be a member of my show string this summer.

Mayflower 21A is a wonderfully feminine and fancy heifer. 21A comes right out of the heart of my herd being a grand-daughter of my old show cow 2K. These Mayflower cows are all hard workers with good udders, and great feet; 12W is no exception. I purchased Cudlobe C C & 7 55Y last year as a yearling. He has strong muscle expression, sound correct feet, a great disposition and is very fluid when on the move. I have been happy with how his calves have grown and developed. 21A will be a member of my show string this summer and would make a nice junior project.

lot 2

Harvest Angus

As a husband and wife operation run by Tom & Carolyn DeWaal, our cow herd consists of 80 mother cows. Our focus is to breed sound cattle with great udders and feet & legs. They are extremely fertile. Our feed program is a basic forage grass base. We welcome folks to come by and look at cattle at anytime. Door is always open and the coffee pot is on.

Ellis Cattle Co. / Dane Ranch

Ellis Cattle Co and Dane Ranch are owned and operated by Clint Ellis and Cordy Cox. Clint is well known in the industry as a successful cattle order buyer and broker. The Dane Ranch is situated in Tatla Lake where the couple runs an extensive commercial cow/calf operation as well as purebred Gelbvieh, Angus and Balancers (Gelbvieh x Angus). The commercial herd is made up of Angus x, or Angus x Gelbvieh females who are then mated to Angus, Gelbvieh or Balancer bulls, depending on the female. The purebred herds are managed the same as the commercial herd; the cattle are turned out to range from June to October and must bring home a big calf while being bred back for the following calving season and the range in the west chilcotin is extremely tough so the cattle have to be hardy and functional. All of the cattle are culled hard for udder quality, soundness, fertility, production and disposition. Clint and Cordy are active in promoting the beef industry and look forward to its' future; they would like to welcome everyone to the 2013 PIAB Sale.

ELLCO Travelling Dutchess 60A is a well-bred heifer calf boasting genetics from some of the top programs in the country, and looks like she will turn into a great brood cow herself. We purchased a group of embryos in recip cows this past fall and 60A is one of the resulting calves. She is sired by Royal Traveller DRCC 4129P who is sired by the great Alberda Traveler 416, a bull who needs no introduction. 60A is out of an impressive young cow from Southland Angus' famed Dutchess line that was originally purchased as a 2 year old by Stonerose; she is sired by the great DMM Posi-Traction and out of Southland Dutchess 155R who is the dam of our other lot in this sale. This heifer calf has a lot to offer both phenotypically and genetically. Be sure to check her out sale day.

ELLCO Steppin Duchess 81A is a moderate, stylish female that has the look of making a very nice cow. 81A is sired by the Justamere 253 Next Step 113R bull who was the high selling bull calf in the SOTY in 2005 for \$30,000 and later went on to win Reserve Grand Champion at Agribition and Champion Bull at the Stockade Round Up in 2006. Next Step is sired by EXAR Master who has sired many show champions across North America. Steppin Duchess is out of Southland Duchess 155R who is a very productive female at Stonerose that was purchased out of Southland's 2010 production sale, and is sired by DMM Ambush 22M from the Miller Wilson program who needs no introduction either. This heifer calf is backed by some great maternal genetics with the DMM Essence, Southland Dutchess, Double AA Annie K, and Rosilla of Peak Dot cow lines in her pedigree.

Mountain Ash Angus

We have been raising Angus since 1995. Over the years we have used some top A.I. sires and have been fortunate to have owned some exceptional walking bulls. Recently, Blast Hobson 15U has worked well for us, producing quality bulls and heifers. Our red herd sire, Red Nine Mile Xample, has his second calf crop on the ground and they continue to look good. Temperament is one of our main priorities and our cattle are known for their docility. We winter our bulls calves at home and sell them as yearlings by private treaty and through local bull sales.

This deep bodied attractive calf is from a Sitz Alliance 6595 Elite Dam we bought from Frank Strimbold as a calf. Full siblings have sold well, both bulls and females. The Blast Hobson 15U daughters have nice tidy udders and are good mothers with a quiet temperament. I plan to show this calf as well.

The youngest of our consignments, she is also a Blast Hobson 15U daughter and is from a Strimbold cow. We really like the Mayflower daughters and have a couple in production. 30A has the potential to become a very functional brood cow. We are pleased to offer you four very well-bred heifer calves.

Little Buddy Red Angus

Little Buddy Red Angus started with the purchase of one cow and one calf in Oct. 2005. In 2006 I added one cow/calf pair and today I have 13 cow/calf pairs and three bred heifers. I am located in Buffalo Creek and run my cows together with DeNavo Red Angus. Over the years I have come to love chasing cows, sorting cows, shoveling manure, fixing fences- again, sleepless nights, calving.....in the dark, in blizzards and at who knows what temperature below zero. Hope you all enjoy the sale.

Jesse 41Z is a hard one to part with because she is the first heifer her dam has produced. The females in her pedigree are all good mothers with moderately framed deep bodies. They boast tight udders with lots of milk. She had a birth wt of 83 lbs, and has above average milk and total maternal EPDs. Her grandsire is the ever popular Sakic.

Jesse 55A comes from a first time heifer. She is a very feminine heifer with a full frame and a deep body. The females in this pedigree all boast excellent udders and lots of milk. She has a great set of EPDs and shows lots of potential. Her pedigree includes the ever popular Sakic on the sire side.

Canyon Tree Farms

Welcome back to the third annual PIABFS. This sale is a great opportunity to see the best that BC has to offer. We have been raising purebred Black Angus cattle since 2000 and have made it our priority to breed functional, efficient and productive cattle. We are consigning two very feminine females with incredible pedigrees and outstanding projected EPDs. Sired by a Tiger son and out of Iron Mountain dams, these two heifers have the potential to be excellent additions to any herd. We offer a 10% discount to any junior member (the calf must be registered in the junior's name).

Sired by our Tiger son, this mid-February calf has a pedigree second to none. We purchased the dam from Peak Dot as an 18 month old open heifer and the delayed breeding certainly shows in her physical development. She has done a great job on her first calf and with projected EPDs placing 48A in the top 3% for weaning weight and yearling weight, this calf has a lot of potential to be an excellent investment. (Picture taken early July)

Blast Angus

We are pleased to be a part of the 3rd Annual Pacific Invitational All Breeds Female Sale! We have been raising registered Black Angus since 1998 and our focus is on easy fleshing, moderate framed correct, no fuss cattle. We have increased our numbers and will be calving out 80 cows in the spring of 2014. 2/3 of our cows are registered, the other 1/3 are commercial- mostly Angus x Hereford. We are really proud of our sale offering this year! We are consigning our top 2 bred heifers, one by the Kodiak bull and the first female to sell out of our Game Day bull. We are also selling a fancy young heifer calf from the Kodiak and Game Day cross! BCAR Game Day 012 has proven to be exactly what we have been seeking in a herd sire-easy fleshing, deep bodied, well muscled, good footed, calving ease bull!! His sons were the top selling bulls at the 2013 Northern Alliance Bull Sale. We purchased two new junior herd sires- BCAR Right Time 2601 and Gerlei Ambush 62Z. Both are calving ease bulls out of great cow families. We are excited to see how they will cross with the Kodiak and Game Day females. We would like to thank all previous buyers and supporters and look forward to visiting with everyone on sale day!

It is really hard to part with this heifer! She is a moderate framed, long, thick, feminine daughter of our Kodiak son who we lost this year with a stifle injury. Kodiak has produced amazing females and great bulls-all extremely consistent. Our core cow herd consists of many Kodiak daughters who are producing awesome calves. A full

sister to 26Z was Tanya Belsham's pick of bred heifers 2 years ago. Her first calf sold for \$4500 in the bull sale! A full brother was our \$5300 high selling bull in the 2012 Northern Alliance Bull Sale to Bar K Ranch. 26Z's dam is a never miss cow who has a smoking good Game Day heifer calf this year!

A fancy March Game Day heifer out of a two year old smaller framed Kodiak cow. She has ample natural thickness and length. Her dam is a maternal sister to the \$6200 high selling bull at the 2013 Northern Alliance Bull Sale! What a cross the Game Day has been with the Kodiak females! The grand dam, 1J is still producing at 14 years of age. You will note that all our consignments are from the Mayflower cow family and all go back to our original Mayflower 12B cow who was a Canadian Colossal granddaughter! This heifer would make a great 4-H or Junior project.

DeNavo Red Angus

DeNavo Red Angus started in 1981 in the Buffalo Creek area of 100 Mile House. It was a small operation with 9 cows purchased from Steve and Patti Wicks of Surrey. 31 years later I still have the desire to raise Red Angus and still strongly believe in them. I strive for calving ease and femininity in my females. Looking forward to seeing you at the All Breeds Sale. Old Friends and New Friends stop by for a chat.

Bred May 23rd to Red Brox Zipline 34Z.

Exposed to Red Brox Zipline 34Z from May 10th to July 31st.

Copper Lady 40z is a hard one to part with. I'd like to have a herd full of these females. Her dam continually produces easy calves that are up and sucking in minutes. They have deep bodies and lots of milk. Check out the above average milk and total maternal EPDs. Her pedigree includes the popular Sakic on the sire side.

The service sire of Lots 11, 18 & 19, Red Brox Zipline 34Z is a calm easy going, yearling bull. He is 25% outcross. When we put him in with his herd of girls he went right to work. He is the son of Red Anchor 1 Hitch 38T. His birth wgt was 76lbs and he grew to a 650 lb weaning wgt. Hitch bulls are very unique in their frame, muscle and presence. Get-A-Long Stock Farm used Hitch 38T as a calving ease sire as well as on bigger cows to reduce frame and add to ability.

Diamond X Ranch

Welcome to the annual "Pacific Invitational All Breeds Female Sale!"

We have been breeding Red Angus cattle for over twenty years and are very proud of what we have accomplished. No more getting up at night to check our cows and heifers because "they know more about calving than we do!" Our repeat bull buyers are really pleased with the ease of calving and the way the calves just jump right up and go to nursing then they carry on and grow like mad! The two heifers we are offering for sale this year are from top producing cows and will be a good addition to anyone's herd. One of the heifers on offer, 28Z is a full sister to the top selling bred heifer in the 2012 P.I.A.B.F.S. Our ranch is located just west of Fraser Lake on Savory Road and we'd love to show you the cattle, have a coffee and a chat. Everyone is always welcome! Enjoy the sale, meet old friends and make new ones.

Poplar Meadows Angus

We have been raising Angus cattle since 1965 and have always strived to have low maintenance animals. Our cows spend summers in bush pastures and are wintered on hay. We have been on a performance system since 1969 when we bought a scale. Cattle are still sold by the pound. After all the years of selection, we feel our cattle are predictable and will go on to produce well for others. We sold all our heifers this past spring to Harvest Angus, Tom & Carolyn DeWaal, so we are entering a couple of top heifer calves. The heifers are sired by the HF Kodiak 132W bull who we lost this year. His first daughters are now milking and are front pasture type cows! Thanks to all previous buyers and bidders!

A really deep bodied, thick female out of a Sitz Alliance 6595 daughter. She should make a powerful cow. This heifer has been Lia's pick of our heifer calves this year! A Lady Heather which is another cow family that has been around since the 1980's! Again, the full sister was selected by Tom DeWaal. The first 132W daughters calved this spring and they have gorgeous udders and are doing a good job on their calves.

Punchaw Red Angus

Punchaw Red Angus, C/D Ranch is located approx. 45 miles S.W. of Prince George, and 66 mi. N.W. of Quesnel, B.C. in the ranching community of Punchaw. The ranch has been in our family since my parents, Wilkinsons, purchased it in 1955 when it was Hereford country. Twelve years ago we decided to run both Red & Black Angus commercially, with weaning weights of approx. 700 lbs. We chose Red Angus for a purebred herd, for their good solid body confirmation, disposition (mildness), mothering traits, udders & feet. Bulls are sold off the ranch and at Williams Lake. The herd is used to being handled and our "critters" are really good to work with!

Bred to Nine Mile Yang 430Y, his sire Red Lazy MC Smash 41N.
 Exposed later to Red Punchaw Prince Pride 20X.

Annie is a heifer from one of our better elite & premier dams. She has given us several half-sisters to this heifer that we have kept in our herd. She is medium-sized, producing good weaning weights, good milk and excellent, gentle disposition. I am sorry to part with this heifer, but know she will be a welcome addition to any purebred herd!

B & R Ranch

When we introduced Gelbviehs to our Pritchard, BC commercial herd in 1998, we were impressed with their ability to thrive on rangeland, their pigmented hooves/udders, their gentle disposition, and their maternal attributes. Along with our AI program and bull selection from top ranking sires, our herd strategy is to maintain easy fleshing, moderate framed, maintenance free seedstock. While maintaining calving ease, crossing with Gelbvieh adds flesh to the hind quarters, increases weaning weights and adds the hybrid vigour that feedlots want. One of our goals is to introduce the value of Gelbvieh to the Commercial Breeders of BC, as has already been done in the other Provinces. The pictures were taken July 2/13, updates available upon request.

This black heifer is the quietest, friendliest little girl we have ever raised. She has lots of eye appeal to go with her disposition. Her sire is very sound, is long, very thick and very easy fleshing with a moderate frame. Her dam has great feet and udder, is easy fleshing, is long and deep with lots of volume in the hind quarters. Her dam is a brood cow that has produced a winning calf every year and her Grand Dam is a 'Dam of Distinction'. BRM 374A is a heifer that will definitely be noticed on sale day. Don't let this gal get away!

If we were expanding our herd, this heifer would not be for sale! She has the look and breeding to make a tremendous brood cow. Her dam is a Dam of Merit. Her Grand Dam was DRB 15A who had great feet and udder and was a still producing quality calves, when we lost her to hardware at 17 years. With her sire being VV 78X ET, there is no question as to the potential of BRM 385A.

Raven Gelbvieh

Throughout my 82 years, I have raised many breeds of commercial cattle. Over ten years ago, I introduced Gelbvieh genetics into my large commercial herd and was very satisfied with their calving ease, docility, and growth. Their maternal strengths and early maturing are a bonus to the commercial cattleman. In 2007, I started raising my own purebred herd, working together with B & R Ranch to maintain a high standard of genetics, through sire selection and AI. My objective is to produce great working cattle with eye appeal and the ever important fertility and growth. By raising quality Gelbvieh seedstock, I can contribute great benefits to the cattle industry. The heifer pictures were taken July 2/13, updates available upon request.

A quiet, good looking young gal, from one of our show string cows. ARN 45A will be an invaluable asset to anyone's cow herd. She inherited her character from her sweetheart mom and has the money-making, easy fleshing genetics from both parents. 45A comes from a longevity line, her 16 year old Grand Dam left the herd last fall, due to a lack of herd space. Darker red and a real looker, she would not be leaving the home herd if we had the capacity.

From very moderately framed dam and sire, this dark red heifer is a real looker and has a quiet disposition. VV 78X ET has sired knockout calves at Raven Gelbvieh and B & R Ranch for the past two years, his calves are very easy fleshing, have good conformation and have quiet dispositions. ARN 50A's dam has an udder with good suspension and good teats. Another great brood cow prospect for any program.

Francois Lake Gelbvieh

Francois Lake Gelbvieh is located on the beautiful Francois Lake which is south of Burns Lake in Northern B.C. I have been raising Gelbvieh Cattle since 1998. My first animals I purchased from Marilyn and Otto Rauch in Rocky Mountain House, Alberta. To keep the quality high, I AI breed my cows from high quality bulls and build my herd up from the offspring. They are fed on strict forage produced locally. The results speak for themselves.

These are two bred heifers that come right from the very top of our replacement pen. They are very maternal in their pedigree and their numbers show it! They are both sound footed, deep bodied females that follow the footsteps of the maternal matriarchs before them. They both descend from one of the cornerstone females of our herd, Sunnybrae Brit Lass 5K, who was also the dam of our 2012 High selling bull at the Williams Lake Bull Sale. They are both bred to our newest herdsire purchased at the famous Calgary Bull Sale. He comes from Nixdorff Farms and we are very excited to see his first calf crop.

Hi-Valley Limousin

We moved to the Cariboo thirty-five years ago to live our life's dream ... and started our little farm. We've had a hand in growing just about everything ... what a life it's been for our daughters. Our girls belonged to the "Highland 4-H Club" for many years ... and we did everything together as a family. It was there that we were first introduced to the Limousin breed ... and we were hooked. We bought our first registered Limousin cow (Bridge Lake Penny) in 1988 and have raised them ever since. We totally believe in them! Quality, polled, Limousin cattle ... our passion!

Stillwater Farms

Stillwater Farms is a third generation family farm in Abbotsford that has been in the family since 1958. We run a mixed farm consisting of broiler chickens, forage crops and registered Simmentals. Our small herd consists of less than 20 registered cows, all of whom are quiet, moderately framed with tons of capacity. We market our bulls each April at the Vanderhoof Bull Sale.

AI'd April 1, 2013 to ACC1 Hustler 2N reg # 666672. Exposed from April 28 to August 1 2013 to WNLP Sterling 32Z registration #T768242. Preg checked safe. Vet feels she is safe to AI.
Ms. Red Caesar is a really quiet, well balanced, nicely made female, out of a great uddered, large capacity cow. She's dark red with black pigment around her eyes and black hooves. She is AI'd to ACC1 Hustler, a homozygous polled and homozygous black calving ease sire from Semex. Whether she has a heifer calf or bull calf, rest assured it'll be stylish and packed with performance.

KLR ALICE 60A is a dark red full Fleckvieh Diamond Head heifer, with a modest birth weight of 85lb. Her dam is a first time calver, with a good utter & good feet, going back to BHR Orange RiverG558E, Overhall Hivy and Monet. Her sire KWA REDBENCH 20P is known to make great females. He goes back to BHR Doorn G629E, Double Bar D LINCOLN, and MS THICKWOOD 36D. 60A has a nice straight back, beautiful utter development, dark hooves, and great temperament. -we feel Alice will make great brood cow. So don't be shy give Alice a try

These embryo's calves come dark red and long. Burner calves will make stylish show females. His calves will push the scales down at weaning time. Burner cross steers calves have been winning in the show ring. Dam is dark red and a great milker, with a straight back and good hooves (we never touched her feet) with AUSTRIN BREEDING. Dam has been a stand out in the pasture always producing that good one. Very quite to work with.

Progeny of Lazy 8 Ms Kalgery - KLR MR PRIMETIME 12 W

Genetics for Today,

LONGEVITY, EFFICIENCY, PROFITABILITY.

Simmental cattle are bred for their unmatched maternal traits and Simmental breeders are aggressively selecting for **increased performance and efficiency** while still maintaining longevity.

Make Simmental a part of your breeding program and ensure your success for generations to come.

A future for tomorrow

SIMMENTAL

KRS Simmentals

Welcome everyone to the 3rd Annual Pacific Invitational All Breed Female Sale. KRS Simmentals is pleased to be a part of the sale again and offer another top pick from our 2013 heifer calves. I would like to invite everyone to our banquet and silent auction the evening of Sept 27th and to join us for our buyer's lunch on sale day. I would also like to thank Starwest Simmentals for purchasing KRSS Mesmerize in last year's sale and hope to see you all on sale day.

KRSS Blk Adara is one of the top 2013 heifer calves from the Flanna cow family. The Flanna females have proven themselves to be a very consistent group of cows here at KRS. Her Dam, KRSS Samara, was shown successfully as a calf and a bred and has gone on to produce many top bulls and females. We paired Samara with LMF Movin Fprward as he added depth, thickness and performance to his calves. Adara is no exception with the added bonus of outcross genetics to most black pedigrees.

Webster Simmentals

Webster Simmentals is operated by myself and my 4 children, Jared, Chelsea, Joel & Jace. I recorded my first heifer in 1970 so have seen a lot of changes in the industry. Our herd presently consists of 22 black and red cows. We use AI and natural sires. Welcome to the sale and hope you like our consignments.

Cutting Edge Cattle Company

Cutting Edge Cattle Company consists of 100 commercial Angus based cows crossed with Maine bulls. We strive to raise calves that are honest, easy feeding, and have lots of natural muscling. We also run 30 purebred Angus leased cows. We sell bulls annually at Prime Time/ Cutting Edge bull sale on the first Saturday in March. Stop by anytime for a tour, whether it is for bulls, females or club calves that you are looking for.

LOT
A

Baldie #54

1/4 Simmental 1/4 Angus 1/2 Maine

This is a calf that would work well for an early show. He is big hipped and big topped. With the 1/4 blood simmy in this calf he will perform on feed.

LOT
B

Roan #35

1/4 Shorthorn 1/4 Angus 1/2 Maine

This calf is out of an X-ray vision cow. If you want a stand out calf here is one that will catch your eye!

LOT
C

Black #109

1/4 Angus 3/4 Maine

This calf has show steer written all over him. He is super stout, big topped and as fuzzy as they come. A calf with a ton of potential. Goes back to Who Made Who on his mother's side.
