### WELCOME FROM PINNACLE VIEW LIMOUSIN:

Welcome to the 5th Annual Continental Connection Bull Sale! We are very excited to be going back to a LIVE auction format this year. Nothing compares to the feeling of attending a bull sale in person! The satisfaction of analyzing these bulls with your own eyes and raising your hand to signal the auctioneer is hard to beat, not to mention the socializing, free lunch, and beer!

Furthermore, we are thrilled that this year we will be selling our first Charolais bulls, offering you a truly "Continental" experience! Our newly acquired Charolais genetics are offering diversity that is being sought after by some of the most progressive programs in the industry. There is a bull for everyone in our very deep pen of yearling and two year old bulls! Bulls that are sound, functional, fertile, and of course docile! We feed these bulls a total mixed ration that includes second cut alfalfa/grass haylage, corn silage, home grown brown oats, and a custom mineral mix. These bulls are developed with longevity in mind so they are not over fed. They will be semen tested and guaranteed on sale day. They deserve to be seen in person to truly appreciate their power, however, videos will be available online in late March.

We invite you to join us in person on April 7th to view the bulls, have a great meal, and bid at our live auction. BC Livestock sales staff will be onsite to answer your questions or confidentially bid on your behalf. Of course, you are always welcome to come view the bulls any time prior to the sale, coffee is always on!

REFERENCE SIREs

LFLC Denver was a new addition to our black bull battery in 2021 and as you can see, he did not disappoint. Kentucky was born twin to bull and his mother did a fantastic job raising both of them on her own. This bull is moderate but thick, and for being a twin we feel his performance was way above par. Be sure to check out his maternal brother in the two year old section to see the power and consistency in this cow family. He has maternal brothers working for Rafter 7 Limousin in Vanderhoof, BC and for Murray Stanton in Sunset House, AB.

Another Denver son that has knocked it out of the park. This bull was a heifers FIRST CALF! It is every producers dream to have a heifer produce like this! To top off this complete package of performance, length, style, and eye appeal, he is one of the quietest bulls in the pen - always wanting pets and attention. Put this one at the top of your list.

One of our favorites since birth, one we showed this past summer and feel could easily go into a purebred program and do heck of a job. His outcross pedigree on the dam side makes him a desirable choice and being homo polled is huge bonus. This bull is going to do great things, be sure to have a close look. He has maternal brothers working for Vicki and Robert Ophus in Vanderhoof, BC and A1 Feeders in Lumby, BC.

Round out this set of Denver sons is one that is pure gold! 24K is moderate in his frame but big topped, with great muscle and beautiful front end. He comes from one of our up and coming star females from our famed 22U cow family, and she did not disappoint with this guy. Homo polled and packed with style, this bull will turn some heads sale day. He has a maternal brother working for Skyline Ranch in Burns Lake, BC.

Kinsmen and his flushmate brother Krackerjack are the first embryo bulls to sell from our top donor female - WGL Arizona. Lets talk fertility for a minute. This bull's mother produced 20 embryos for us, while nursing twin heifer calves! This bull will surely have this in his blood. Homo polled, good footed, and nicely muscled, you'll like this one. A maternal brother is working for Darren Either in Chetwynd, BC.

64% Lim-Flex bull here. This Angus/Limo hybrid is a "best of both worlds" option when it comes to choosing a British or Continental herdsire. He is longer than freight train when you're late for work, and has had explosive performance since birth. His 12 year old dam is as consistent as the come and she just keeps cranking them out! This bull is going to put some cash in your pocket, no doubt about it. **LOT 15**

These next three bulls are the proof of what we love Sting for the most – Consistency, consistency, consistency. They are peas in pod, just plain good. Khan is homo polled, deep bodied, and has a great Limo character. He comes from one of our most prolific cow families who have sons and daughters working in our herd as well as for Roddie Creek Ranch of Quesnel, BC, Art Studley of Dawson Creek, BC, and Rim Rock Ranch of Vanderhoof, BC.

This Sting son has a slight scur, but don't be alarmed, he is still double polled. He comes from a cow that is quickly making her way up the ranks in our herd, cranking out the good ones year after year. Including a maternal sister to this bull that went to Jack Glendenning in the US and is now a donor cow in his program. This bull's maternal brother, 85G was a sale feature in our 2021 sale selling to Bruce Prebushewski of Cherry Creek, BC.

Another smooth made, beautifully patterned, homo polled Sting son. I love the eye appeal and presence in this bull. He is the youngest in the offering with a moderate 87lb birthweight but comes with tons of performance and impressive growth. This bull is going to have some friends come sale day. A maternal brother is working for Stewart and Diane Hopkins of Cecil Lake, BC.

I said these Sting sons are consistent and I wasn't lying. Hard to fault these calves really. Smooth made, lots of muscle, depth of body, structurally sound. Take your pick, you really can't go wrong with any of them. Check out this guy's maternal powerhouse of a brother in the 2 yr old section as lot 29. This cow just keeps cranking out the good ones and these guys are no exception! Maternal brothers have sold to Cara Kells of Vanderhoof, BC and KMS Land and Cattle of Quesnel, BC.
