Book now for 2020 Aerial Programs:

Range and Pasture Noxious Weed, Western Spruce Budworm and Tussock Moth Control, Seeding for Revegetation

Benefits

- Cost-effective noxious weed control in range and pasture/forestry pests.
- **50% cost share program available to landowners in the TNRD and CRD regional districts with a maximum rebate of \$3000/year. (Please enquire)**
- Targeting noxious weeds/pests at an early developmental stage to reduce herbicide and insecticide application rates.
- Seeding to revegetate after disturbances such as fire and forest harvesting
- Efficient spray coverage over difficult terrain, target regions resulting in faster and uniform noxious weed control as well as forest pest control.
- Aerial spraying jobs are recorded on GPS topographical maps for future range management decisions.

Purity Feed Ltd. will be offering our aerial programs starting in **June 2020**, *assessments and confirmation are needed a MINIMUM three weeks prior to program starting date.
